DETAILED ACTION

NOTE: This action is a supplementary Notice of Allowance.

Terminal Disclaimer

1. The terminal disclaimer filed on 07/15/2010 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of App. no. 11/203,556 and appl. No. 11/562,300, Patent no. 6,957,041 and 7,415,430 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Note: During an inventor search various copending application and patents were found. The independent claims of some of the copending applications and patents were somewhat related to the independent claim of the current application. Applicants' representative was contacted and a terminal disclaimed was filed and approved.

It should also be noted that the MPEP section 804 of the MPEP discloses that "if a "provisional" nonstatutory obviousness-type double patenting (ODP) rejection is the only rejection remaining in the earlier filed of the two pending applications, while the later-filed application is rejectable on other grounds, the examiner should withdraw that rejection and permit the earlier-filed application to issue as a patent without a terminal disclaimer. If the ODP rejection is the only rejection remaining in the later-filed application, while the earlier-filed application is rejectable on other grounds, a terminal disclaimer must be required in the later-filed application before the rejection can be withdrawn.

If "provisional" ODP rejections in two applications are the only rejections remaining in

those applications, the examiner should withdraw the ODP rejection in the earlier filed application thereby permitting that application to issue without need of a terminal disclaimer. A terminal disclaimer must be required in the later-filed application before the ODP rejection can be withdrawn and the application permitted to issue. If both applications are filed on the same day, the examiner should determine which application claims the base invention and which application claims the improvement (added limitations). The ODP rejection in the base application can be withdrawn without a terminal disclaimer, while the ODP rejection in the improvement application cannot be withdrawn without a terminal disclaimer.

Allowable Subject Matter

2. As previously disclosed in the notice of allowance, claims 1-11, 34-37, 44-47, 50-67, 69-89 are found to be allowable.
